#iwacongress

Ecopreneur sa is an Argentinian engineering company, Regional Leader with a clear strategy in innovative solutions for Water, Industrial and Urban Waste Water Treatment, Biogas and Oil & Gas.

We have a wide range of integral technologies, giving the best Cost Benefit alternatives to help our clients reduce operative costs and increase efficiency of Water and Effluent Plants. With more than 25 years of experience, Ecopreneur sa develops several projects for Water Reuse, Biogas, Produced Water and Flowback Treatment in the Oil & Gas field.

Our mission is to design our projects with the better combination engineering and managing, always keeping full respect for the environment, as an unbreakable value of the entire community. It is also our aim to search for a continuous improvement of the processes that define the Integrated Quality and Environmental Management System.

This will be our first time at IWA, we are excited to be part of this important international event which means the possibility to showcase our systems and share our expertise and the latest engineering solutions with our colleagues from around the world.

It is an invaluable opportunity to highlight our technologies and know how in the water and waste water world.
