In 2017, independent water treatment solution providers Emefcy and RWL Water joined forces to create Fluence Corporation with the vision of becoming the leading global provider of fast-to-deploy, decentralized, and packaged water and wastewater treatment solutions. With a team of 300 highly trained water professionals and experience operating in 70 countries around the world, Fluence provides local, sustainable, treatment and reuse solutions while empowering businesses and communities to make the most of their water resources.

Fluence offers an integrated range of services across the complete water cycle, from early-stage evaluation, through design and delivery, to ongoing support and optimization of water-related assets. With core operations in North America, South America, the Middle East, and Europe, and China.
