SOMAGEP SA is a contracting company in charge of operating drinking water infrastructure in the contiguous perimeter. The exercise of this public drinking water service requires us to be responsible and have professional behavior in accordance with the rules of ethics, the regulations in force, and the respect of our interested parties (customers, shareholders, collaborators, partners, suppliers and subcontractors). "To provide drinking water in sufficient quantities and quality throughout the entire area to meet the needs and expectations of customers, in compliance with contractual clauses," is our ambition.
