

*“The African Water Association (AfWA), as the leading organization in the WASH sector in Africa, is and will always be where important stakeholders gather to talk about Drinking Water and sound Sanitation Services, as well as Environment, Hygiene and Climate Change.*”

*That’s the main reason of our participation in IWA different congresses around the world, along with voicing African expertise.”*

Sylvain Usher, Executive Director of the African Water Association

*“We see IWA WDCE 2017 Buenos Aires as an excellent opportunity to showcase our unique pump systems designed for abrasive fluids and corrosive fluids. While we already work with AySA and leading water treatment entities in Argentina, the drive to upgrade water and effluent treatment plants creates fantastic opportunities to introduce new pump technologies that increase reliability and controllability and reduce operating costs.*”

*All Pumps Argentina S.A. specializes in pumps and pumping systems designed to handle fluids such as lime slurry, aluminium sulphate, PAC, sodium hypochlorite, activated carbon slurries and digester and thickener sludge. From specification stage through to on site commissioning, training and maintenance programs, we have people on the ground to ensure that every stage of the process is seamless.*

*With pumps installed in major water treatment works around Argentina All Pumps has proven to be a reliable partner in the public and private sector for specification, system engineering support, supply and commissioning. Whether upgrading existing pump installations or installing new systems we strive to provide exceptional results for our customers – is in our DNA.”*

Bradley Grant Dormer, General Manager of All Pumps Argentina S.A.

*“The 2017 World Water Congress is an excellent opportunity for Serviur to show the full potential of the organization and to strengthen commercial ties between the private and public sector. A great occasion to reinforce our trademark image and connect with a highly qualified public. We believe that cultivating public-private partnerships is crucial to the longterm sustainability.”*

*“Winters Instruments feels privileged to be involved with this important global event. We are excited for the opportunity to meet with so many inspired, passionate professionals who are tackling the world’s water issues head on.*

*We’re There.*

*As a manufacturer of lead free brass and waste water instrumentation, Winters looks forward to meeting with attendees at the IWA Water and Development Conference & Exhibition to share our experiences and learn from their experiences.”*

**ZENNER**

Todo lo que cuenta.

*“The IWA Water and Development Congress & Exhibition 2017 in Buenos Aires will give ZENNER the big opportunity to take place in the global water community. At IWA 2017 we will show our intelligent and robust solutions for water-, heat- and gas- metering for utilities and industry. The ZENNER product line includes apartment, residential and bulk water meters, heating and cooling meters, gas meters and up-to-date system technology such as remote-controlled radio and M-bus systems.”*

Hanns-Josef Thiedes, Export Director
