

Stand 90

Hermann Sewerin GmbH

The Sewerin group of companies is an internationally successful, technically innovative, family owned group with headquarters in Gütersloh, Germany.

With top level products and services, they are the market technology leader and a partner to the gas and water supply industry. Together with their over 90 years of experience in the development of measuring devices, the knowledge accumulated by their own measuring teams contributes significantly to their success.

At the Gütersloh location, the innovative devices move through development, design, testing and production before they are finally ready for the market. Throughout there is a particular emphasis on high quality and functionality. An important factor of success is the production in Germany.

In addition to the sale of measuring devices and services offered by the gas and water leak detection teams, the Sewerin group of companies offers stationary and mobile device maintenance service, development of emergency and leakage service vehicles and servicing and repair of home installations. In addition, a comprehensive program of seminars with test track rounds out the spectrum of services.

An extensive distribution network consisting of sales engineers, subsidiaries and distribution partners in over 80 countries makes success on a global level possible.
