

## Stand 8

### **IWA-ASPIRE 2019 Hong Kong**

The International Water Association Regional Committee of Hong Kong, China is delighted to host the IWA-ASPIRE Conference on 31 October – 2 November 2019 in Hong Kong.

With the theme of “Smart Solutions for Water Resilience”, the highlights of the Conference will be smart and novel solutions for building up water resilience capability in Hong Kong in respect of water resources & supply, flood prevention and sanitation. The programme includes keynote lectures, plenary sessions of renowned international and regional speakers, oral and poster presentations, workshops, technical visits and social events. An exhibition will also be held concurrently to showcase the latest products and services offered by the water industry.

Building a water resilient city is a critical part of the goal of the Hong Kong Special Administrative Region Government and the practitioners in the water sector. We devote our efforts in total water management, world-class drainage services, healthy and pleasant environment for the sustainable development of the city. Come and see more at the IWA-ASPIRE 2019 in Hong Kong.
