Flanders Knowledge Center Water (Vlakwa/VITO)

Providing Flanders with sufficient water of good quality at a reasonable price is a major challenge. The key to success is an cooperation between enterprises, researchers and government. The Flanders Knowledge Center Water (Vlakwa) is the driving force.

At those areas in the market where water problems constitutes a threat to the economy, Vlakwa initiates, coordinates and facilitates:

- International research, development and innovation projects;
- Partner search;
- Knowledge transfer.
